

# I N T R O D U C I N G ETHERNET EXPRESS

Very fast, affordable & reliable Business Internet Access solutions From DONet, the local company, reliably delivering data without delay since 1995.

Our Ethernet Express service is ideal for businesses needing more bandwidth than DSL, but without the expense of fiber. Internet multiple-user environments of 10 to 40 really benefit. Save time transferring large files across the Internet and make you and your business more productive.

## High Speeds

With speeds up to 20Mbps. Choose from our Express 10 or Express 20 services. Also available is a full duplex option – perfect for VoIP, VPN and terminal services. Of course, Ethernet Express is scalable for a range of speeds to meet your specific needs and demands.

## Affordable Pricing

Prices begin under \$300 per month. Compared to T-1 and fiber, we're confident that you'll agree our Ethernet Express service is the best value. No long term commitment required, only a short one-year service agreement.

## Reliable

DONet provides a fully-managed, Cisco-powered service with 24x7 monitoring and maintenance. Built-in redundancy for higher reliability and the highest availability.

## Quick Installation

No need to wait for a month or more. DONet can get your business up & running in about two weeks.
